

ABOUT US

The Realtors Agro Management is a full-service agricultural management company, specializing in the strategic oversight of farmland, agribusiness properties, and rural estates. Our team of experts blends deep industry knowledge with a passion for sustainable farming, ensuring every property is optimized to its fullest potential.

With years of experience in agricultural and rural real estate, we work hand-in-hand with landowners, farmers, and investors to maximize productivity, enhance land value, and ensure long-term profitability, all while preserving natural resources and protecting the environment.

When it comes to irrigation, we adopt methods tailored to the land's needs: drip irrigation for water-scarce regions to conserve resources, and flood irrigation where water is abundant to maximize yield.

Harvesting will be in every 2 years from the Date of Cultivation.

At TRG Agro (The Realtors Group), Poplar tree cultivation stands as a sustainable and high-demand investment. Fast-growing and versatile, Poplar is widely used in furniture, paper, matchstick, and construction industries, making it a reliable source of consistent returns.

From plantation to harvesting, we apply modern agro-forestry techniques to ensure optimal growth cycles and maximum yield. With its increasing demand across local and international markets, Poplar farming at TRG Agro offers both profitability and environmental sustainability.
